This is my own work as defined in the Academic Ethics agreement I have signed.

Solution State:

1. Compilation Status:

   - The code compiles successfully with no errors or warnings on both local and university servers.

2. Execution and Output:
   - The code provides expected output when tested with the commands.

   - ./tldmonitor 01/01/2000 01/09/2020 < small.txt | sort -n | diff - small.out and .

   - /tldmonitor 01/01/2000 01/09/2020 < large.txt | sort -n | diff - large.out.

3. Bug Assessment:

   - No known bugs have been identified in the submitted code.
